

Locally sourced and handmade jams, jellies, marmalades, salsas and relishes from Texas.

It's a great summer for native fruits!

We are in the midst of one of the best summer's ever for wild and homegrown fruit in Texas. It started with the dewberries that Sally and I picked at the end of May which are pictured above. We have blackberries from the Brady area and plums from Round Rock and Hutto. We are waiting for the mustang grapes, prickly pear, and figs to mature.

In addition, we bought citrus and mangos from Mission, Texas, as well as Poteet strawberries and Stonewall peaches. We also picked the hot peppers from our own gardens. This weekend, I hope to pick some wild maypops in Georgetown. I write all this to say that I didn't realize the number of different fruits available from all around Texas. It is so

much fun to research and create new products from old recipes and our imaginations which we get to share with all of you. I hope you enjoy them as much as we enjoy making them for you!

Low Sugar, No Sugar and Unsweetened Strawberry

After much thought and feedback, we have finally created a terrific and all fruit jam! It took a few trial runs, but we love our new Unsweetened Strawberry Jam. It contains strawberries, granny smith apples and unsweetened grape juice. This translates into around 8 carbs/tbl. and a great flavor. We also have a low sugar strawberry jam that uses Truvia and a no sugar variety with Stevia. Come by, taste all 3, and choose your favorite!
